## August 2016 - Special Edition

During the month of August, County Road 12, which runs between Bristol Springs and Naples, will be closed to through traffic just north of Fribolin Road and will remain so until mid-September. The closure impacts accessibility to the well-known scenic overlook that provides great views of Canandaigua Lake. How will this impact your business or visitor's experience? Are you and your frontline staff prepared to be primary sources of great alternative route information?

Not to worry! Finger Lakes Visitors Connection has released ideas for alternative routes to the scenic overlook, and great things to see along the way. This information is available online in the form of a blog post, which can be accessed using the link below. It will also be made available hardcopy in the form of an informational rack card being produced by Finger Lakes Visitors Connection.

The rack card is available to everyone and is designed to both inform your frontline staff as well as guide the traveling public to and from the overlook during the road construction process. If you are interested in obtaining copies, please send an email to [Jake@visitfingerlakes.com](mailto:Jake@visitfingerlakes.com) or give Jake a call at (585) 394-3915.

We at FLVC think this is an opportunity to take a road that may be less traveled, travel new paths, and explore. We firmly believe that there is no one "right" way to get where you're going and that, in the Finger Lakes, every road leads to adventure!

For alternative Route information, travel ideas, and more, either for yourself, visiting customers, or to inform your frontline staff; view our blog post at:
